

Introducing New Digital SOLUTIONS

We are SO excited about the TWO new digital tools and features offered at T2S!!! T2S has partnered with a new company called SCRAPHD. SCRAPHD gives you the opportunity to use designs from your favorites like Teresa Collins, 7 Gypsies, 3 Bugs in a Rug, American Crafts and MORE to create incredible

digital layouts. You don't need to buy any expensive software and because it is online, new designs and papers and embellishments will be added regularly without needing to download upgrades. For more information or to jump right in thru our Digital Design Center—[click here!](#) Visit my [blog](#) for designs I created.

The Second Solution are for those that already have the digital scrapbooking software, such as Photoshop or Elements. Through our newest partnership with Die Cuts with a View (DCWV), you can purchase and download incredible designs at a low cost to use within your favorite software. [Click here](#) for more information. You will absolutely love these!

March is National Craft Month! Celebrate with us by visiting our website!! Almost all products are 10% off or more!

Also, remember to visit us on [Facebook](#). Share pictures of your crafty talents or a favorite tip or tool! **BONUS!** If you post or comment on our Facebook page, blog or online Gallery from now until the end of March, you will receive a special "thank you from T2S for helping us grow! We love to hear from you!

New Products at T2S

So MANY things so little TIME!

Here is just a few new items...

"FREEZE FRAME" - This is perfect for helping finish all your paper projects more quickly. Watch the demo.

Exclusive KITS from Quick Quotes—PERFECT! T2S has joined the exclusive Retailers Kit Club at QQ. Each month we should have some fun, unique and amazing kits to offer. Watch our calendar for available workshops and classes.

Encouraging Words

"Ability is what gives you the opportunity; belief is what gets you there. "

~ Apollo

Tip Corner

This is a great tip for those slippery little cutters & tools that just can't seem to "know their place" when in use. Try adding a small dab of hot glue on the four corners of your cutter or tool and let dry. Be sure you do not create an unevenness with the glue. This is a very good solution for when you lose those rubber feet inserts. Just fill the space with hot glue. Once dry, no more sliding.!

Special HAPPENINGS....

CHA was amazing this year and VERY exciting as we were introduced to new products, new designers and new techniques. Got to spend a few minutes with Tim Holtz as he showed me his new die cutter being released in April 2010 (yes I want to get it—you will too!) Check out our "RESOURCE" page for the 2010 Winter CHA Video Blog with Tim and so much more. And keep your eye on our [Calendar of Events](#). Great new monthly KIT classes that you will love and FREE Scrap events and socials.
